

Elephant Toothpaste

Step-by-Step

Ensure table is covered with plastic tablecloth. Place foil pan in on covered table and put 2-liter bottle in the center of the pan. Before you begin, make certain all children are sitting down and away from the table so everyone can see. Remember the more excitement you create, the more excited the kids will react.

Step 1: Place Funnel in Top 2-Liter Bottle, Then Gently Pour $\frac{1}{2}$ Cup Hydrogen Peroxide into Bottle Through the Funnel.

Step 2: Carefully Pour $\frac{1}{4}$ Cup Dish Soap into Bottle Through the Funnel.

Step 3: Gently Open Packet of Yeast (With Scissors) And Pour into Small $\frac{1}{2}$ Filled Water Bottle. Close Bottle and Gently Mix.

Step 4: Remove Funnel From 2-Liter Bottle and Carefully Add 4-5 Drops of Food Coloring Directly into the Bottle.

Step 5: Get EXCITED! Create the MOMENT! Are you READY?

WATCH THIS! Then Carefully Pour the Yeast & Water Mixture Directly Into 2-Liter Bottle and **WATCH THIS!** (All Ingredients in the Bottle Will Rise and Force Through the Bottle Opening Looking Like Toothpaste).
